

# K-12 & SECONDARY EDUCATION

The Department of Educational Studies: K-12 and Secondary Programs provides professional education for students seeking teaching licensure in a wide range of secondary and K-12 content areas. Through diverse offerings of coursework and clinical experiences in regional schools, our candidates gain proficiency in dispositions, methods, and technology needed to meet the needs of today's K-12 learners. The programs prepare students for initial licensure as professional educators in K-12, middle, and high school classrooms. Programs focus on gaining the knowledge, skills, and dispositions needed to function effectively in diverse educational settings.
