Drs. Vicki Hunter and Laura Harrison will co-teach this innovative course that will study the reentry experiences of women using sociological and feminist theories of identity. The class roster will include students living within the women's prison in Waseca *and* students from Minnesota State University. This unique educational experience will provide an opportunity for both groups of students to learn about how sociological and feminist theories of gender, race, and class apply to the process of reentry. The course will take place in an environment that exposes students to diverse perspectives on incarceration, reentry, and identity.
