

19TH ANNUAL  
**EARTH**  
CONFERENCE

FROM EXTRACTION  
TO REGENERATION:  
The Future We Create

SATURDAY,  
NOVEMBER 2, 2024  
9AM - 3:30PM

Driven by the excessive production of commodities and wealth, our society has normalized the relentless extraction of natural resources at unsustainable rates.

How did this culture of extraction arise?  
What are the consequences for both the environment and humans?

In this conference we will explore pathways towards a culture of regeneration. We will learn from individuals and organizations committed to building regenerative systems, and learn ways to integrate these practices into our daily lives.

We will discuss how we can create a system that honors the well-being of both human communities and the natural world.

In-Person (Pre-registration):	\$50
In-Person (At the Door):	\$60
Student:	\$15

**MSU STUDENTS REGISTER FOR FREE!**

*Morning Coffee and Lunch Included with Registration*
